### MONTHS OF THE YEAR

January is freezing up the hills  
February is for having very  
sweet meals

March has fairies and everything  
green

April fools but not that mean

May has flowers and so many  
bees to see

June starts the fun in the sea

July has fireworks flying up to  
the sky

August is so hot I need ice cream  
to buy

September is a brand new  
school year

October means scary Halloween  
is here

November is to be very thankful  
December has gifts that are so  
cool.

### SPRING

Spring is beautiful  
It is colorful

Flowers bloom everywhere  
From here to there

The sun shines yellow and bright  
With such light

Spring is wonderful in many ways  
It can last for many days

Spring can be fun  
When you get out and run

Spring can be very nice  
There won't be many mice

Spring brings cheers  
It may bring music to your ears.

### RATTLE SNAKE

Once a snake slithered  
By a plant that withered  
It went past a bog  
That was next to a dog

He was clever like a wizard  
He got caught in a blizzard  
He was a rattle snake  
And flies he'd always take
